Teaching Assistant Development Programme

Completing the survey

Welcome to the *Teaching Assistant Development Programme*, which is designed to give you a personalised learning plan that matches your unique set of skills and aspirations. The first step in the process is to complete a short online survey.

Note that the survey is currently best completed on a computer, rather than a phone or tablet.

1 Go to the survey website below and enter the log-in code and password.

Website:

Log-in code:

Password:

2 Answer the questions. The survey has 39 questions and should take around 15 - 20 minutes.

3 At the end of the survey there is a review screen where you will have the chance to check and change your answers. When you are happy, click on **Submit**. (Please remember to do this or your answers will be lost.)

If you log out before you have finished the survey, your answers will not be remembered when you log back in, so you need to complete the survey in one go.

What happens next?

Once all the TAs have completed the survey, you will get a report showing your answers, and recommending a set of courses to help you develop in the areas that you have said are important to you.

At the same time, you will receive a login which will give you access to your recommended learning material any time, using a phone, tablet or computer.

Privacy

When you are completing the survey you will be asked for your email address. This is so that we can create your **nimbl** mobile learning account. Your email address will not be passed on to anyone or used for any other purpose.

You can see our full privacy policy at anspear.com/app-privacy.
